Cheltenham College aims to provide an environment in which each pupil in its care can flourish and grow in all spheres of their school life in a safe and secure environment. The relationship between pupil, parent and House, will be fundamental to this and communication is encouraged to be frequent and open.

A Cheltenham College House should be a place where all pupils can study, play and rest, and there should be a real sense of community and mutual respect. Pupils should develop responsibility for themselves and others, fostering their individuality whilst respecting the individuality of others. We encourage all to be resilient and to develop a positive attitude when faced with challenges, to be confident but not arrogant, to respect and show consideration towards the immediate and wider community in which we live, and to take advantage of the opportunities offered to them.
